

Business Continuity -- as a Service --

Organize readiness... and ensure survival of your business.

Prepare your business to face adverse events and organize sustainable Business Continuity. LRNGBusinessContinuity helps you build efficient & practical Emergency Response Plans and Business Continuity Procedures, provide accurate training to key personnel, and organize real-life or desktop exercises.

Because we're never prepared enough.

Innovation by LRNGRiskConsulting

Business Continuity as a Service (BCaaS)

BCaaS, what is it?

Business Continuity as a Service (BCaaS) is a subscription scheme for services and assistance.

For as long as the subscription plan is active, we're supporting you with the implementation, maintenance or development of your Business Continuity Management System.

Of course, the higher the subscription plan, the faster the progress, and the broader the level of assistance.

Affordable

Thanks to the subscription scheme, get an attractive monthly fee, no longer costly and endless consulting fees!!

Flexible

Start when you need it, push the gas down (S → XL), slow down (XL → S), and stop whenever you want.

Adapts to every situation

Whether for maintaining or developing an existing System, or for implementing a new one, you'll find a perfect fit!

Progress at your own pace

From a few hours to several days each month, it's your choice!

Adjusts to your needs

From simple support to comprehensive takeover of your Business Continuity Management System, you decide the level of assistance you need.

LRNG Business Continuity
