

Are you ready... for the unpredictable?

LRNG ERM Starter Pack

**What makes the Value of your Business?
What are the Risks that can kill Your Business?
How to protect it against those Risks ?**

At the intersection of Risk Management and Business Strategy, our ERM Starter Pack addresses those business-critical questions (and many others), and helps you implement a Risk-based Strategic Roadmap, with references to concepts like Business Model Canvas, Lean Startup or Backcasting.

The perfect start for your Enterprise Risk Management System (ERM)!
Get ready... even for the unpredictable !

Our method: a pragmatic approach

Introductory Meeting

No Big Theory, but quick tips to understand the key concepts.

Interactive Workshops

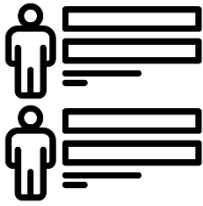

A practical exercise where concepts are immediately turned into action, following methodology derived from ISO 31000.

Meaningful Deliverables

Useful, ready-to-use, replicable deliverables your Team can immediately take ownership of.

ERM Starter Pack : Enterprise Risk Management in 6 bullet points

Interview

A preparation meeting

A 1-hour (or more !) interview to prepare the sessions, understand the context, define scope and set goals.

Interactive Workshop 1

What are the Risks that can kill your Business?

An Introduction to Risk Management, promptly applied to **your** Major Business Risks [MBR].

Summary

An interim report

A structured summary of your Major Business Risks, and an interim Risk Processing framework (for your homework!)

Interactive Workshop 2

Time for Action !

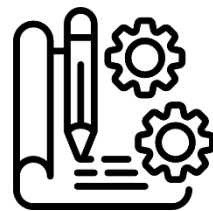

Risk Processing methodology, and implementation of a Risk-based Strategic Roadmap

Discussion

A wrap-up session

Open discussion: debriefing, feedback, next steps, ...

Document

Final Report

The Final Report includes: your MBR Risk Register & Heat Map, an Action Plan, and your roadmap to Enterprise Risk Management.
